

Call For Papers

"Smart Innovations and Global Challenges of the XXI Century" is an international forum to be held in **Perm, Russia, October 18 – November 23, 2021**. The event will be organized both online and offline. The main goal of the forum is to discuss the tasks and problems faced by science and education and the whole society in the context of globalization of civilization processes on the planet. The forum also aims at finding solutions and paths for implementing potentials, fighting threats, and controlling risks. Global challenges, which determine the main trends in the development of social and economic life of mankind in the XXI century, require the integration of efforts of specialists in various fields of knowledge, production and economy. That is why the main principle of the forum's program is interdisciplinarity, formation of end-to-end innovation chains: fundamental and applied research, technology development, implementation, and wide application of smart innovations and information technologies.

We are pleased to invite you to present your papers in English at the Forum "Smart Innovations and Global Challenges of the XXI Century". Articles in English, 7-15 pages, approved by peer-reviewers and meeting the requirements of Springer [Proceedings Guidelines for Authors](#), will be published in the book series [«Smart Innovation, Systems and Technologies»](#), submitted for indexing in Scopus, and located in the [SpringerLink digital library](#). All submissions will be evaluated for relevance, originality, importance, and clarity, and will undergo double-blind peer review. Once articles are accepted for publication, authors must complete a publication consent form and pay the registration fee. The link to the download area, the publication consent form, and information about the registration fee will be provided on the website and forum groups in social networks.
